Planting Installation Intern

Offshoots, Inc. seeks a spring/ summer intern to join our Boston design-build team for the Summer of 2024. Ideal candidates would start in late April/ Early May and continue to work with the Offshoots team through the summer months. There is also opportunity to work part of full time into the fall with the right candidate.

Offshoots is a landscape architecture and horticulture installation practice. We focus on creating sustainable, ecologically sound landscapes. Daily internship responsibilities will include planting and soils installation and garden maintenance. Qualified candidates will have prior experience working outdoors in the field (ideally previously with a landscaping company or farm) and strong interest in the horticulture. Please visit our website for more information on our horticulture installation services: www.offshootsinc.com.

Preferred candidates will have previous experience working outside and can work outside in varying weather conditions. Previous experience planting/installing trees and garden material is strongly preferred. A strong interest and general knowledge of horticulture or environmentally-sustainable landscape design is essential. Must have ability to lift 70+lbs consistently.

Interns will be exposed to sustainable horticultural landscape design techniques and will be trained in the proper installation of plants and garden maintenance practices. Part-time spring, summer and fall opportunities are also available. An internship with Offshoots could turn into a permanent position with the right candidate after graduation.

Please provide a resume and the contact information of (2) professional references.

Our office is located within walking distance to the Orange Line/ Sullivan Square in Charlestown, MA. Workday is from 6:00am to 3:00pm on weekdays. Flexible hours and part time positions possible. No weekend or holiday work requirements. If you are interested, please send your resume and work references to Offshoots, Inc. at office@offshootsinc.com and Offshoots Director of Landscape Operations Joe Shafner at joe@offshootsinc.com.

About Offshoots: Focused on creating productive landscapes that provide ecological, social, and economic benefits, Offshoots, Inc. is a landscape architecture, planning and horticultural installation company in Boston. We specialize in the design of highly specific planting schemes that are ecologically connected, integrating phytoremediation systems to uptake and remove pollutants from the environment. Installation projects include residential gardens, public parks, and multi-family housing projects. Please visit our website: <http://www.offshootsinc.com> for more information.
